

DIPAK ODHAVANI

Full/MERN Stack Web Developer

Mandvi-Katch, Gujarat, India | dipakodhavani@gmail.com | +91 9313113697
[linkedin.com/in/dipakodhavani2006/](https://www.linkedin.com/in/dipakodhavani2006/) | github.com/Dipak162006 | dipak-dev-portfolio.vercel.app

Passionate and detail-oriented Web Developer with hands-on experience in building responsive and user-friendly web applications using React.js, Node.js, PHP, JavaScript, HTML, CSS, and MySQL. Developed multiple full-stack and AI-based projects including AI Citizen Service Assistant, SignSpeak, Lost & Found System, and Finance Tracker. Skilled in frontend and backend development, API integration, database management, and responsive UI design. Eager to apply technical expertise and problem-solving abilities to develop efficient and modern web solutions.

AREA OF EXPERTISE

Programming Languages	JavaScript, PHP, Python, HTML5, CSS3
Web Technologies	React.js, Node.js, Bootstrap 5, REST APIs
Databases	MySQL, PostgreSQL, MongoDB
Tools	Git, GitHub, XAMPP, Postman, AI Tools

KEY ACHIEVEMENTS

- Developed 6+ full-stack and AI-based web applications using React.js, Node.js, PHP, JavaScript, and MySQL.
- Built innovative projects including AI Citizen Service Assistant and SignSpeak focused on automation and accessibility solutions.
- Participated in multiple hackathons, AI competitions, and technical workshops including TechNova Hackathon 2025 and Azziptech AI Agent Making Competition 2026.
- Collaborated on web development projects and gained hands-on experience in debugging, version control, and application deployment using Git and GitHub.

PROFESSIONAL EXPERIENCE

Web Development Intern IT Hub Software Solutions (On-Site)	Jun 2025 - Jun 2025
- Worked on the Finance Tracker web application using PHP and MySQL. - Developed responsive frontend pages and backend functionalities. - Improved API integration and database management skills. - Collaborated on debugging and project development tasks.	
React.js & Node.js Intern Azziptech (On-Site)	Jun 2024 - Jun 2024
- Learned and implemented React.js and Node.js development concepts. - Built frontend components and integrated backend APIs. - Gained practical exposure to full-stack web development and responsive UI design. - Improved understanding of application workflows and backend communication.	

Apex – Full-Stack Expense Management & Analytics SaaS**Technologies:** React.js, Vite, Tailwind CSS, PHP, MySQL, JWT, Recharts**GitHub:** github.com/Dipak162006/expense-management-system

- Developed a modern full-stack expense management platform with secure authentication, financial analytics, budgeting tools, and interactive dashboards.
- Implemented responsive UI, transaction management, PDF/Excel exports, and real-time expense tracking features.

Smart Lost & Found Portal**Technologies:** PHP, MySQL, JavaScript, Bootstrap 5, Chart.js**GitHub:** github.com/Dipak162006/lost-found-system

- Developed a modern lost and found management system with secure authentication, role-based access control, and real-time item tracking features.
- Implemented responsive dashboards, AJAX-based live search, item bookmarking, email notifications, and admin moderation functionalities.

FastNet WiFi – AI Voice Calling System**Technologies:** React.js, Node.js, MongoDB, Twilio API, OpenAI APIs**GitHub:** github.com/Dipak162006/ai-calling-system

- Developed an AI-powered sign language recognition and translation system using computer vision and deep learning for real-time gesture-to-text conversion.
- Implemented hand landmark detection, smart sentence generation, multi-language translation, Text-to-Speech (TTS), and English-to-ISL translation features for accessibility support.

AI Citizen Service Assistant IN**Technologies:** Python, Flask, PostgreSQL, JavaScript, Groq API**GitHub:** github.com/Dipak162006/ai-citizen-service-assistant

- Developed an AI-powered web application to help citizens discover and check eligibility for government schemes using conversational AI and smart filtering.
- Implemented Hybrid RAG architecture, multilingual support, secure authentication with Google OAuth, persistent chat history, and dynamic user profile management using Flask and PostgreSQL.

SignSpeak – ASL & Sign Language Recognition and Translation System**Technologies:** Python, Flask, TensorFlow, OpenCV, MediaPipe, JavaScript**GitHub:** github.com/Dipak162006/SignSpeak-Sign-Language-Recognition-System

- Developed an AI-powered sign language recognition and translation system using computer vision and deep learning for real-time gesture-to-text conversion.
- Implemented hand landmark detection, smart sentence generation, multi-language translation, Text-to-Speech (TTS), and English-to-ISL translation features for accessibility support.

EDUCATION

Bachelor of Technology in Information Technology

2023 - 2027

Gyanmanjari Innovative University – Bhavnagar

- CGPA: 7.38/10

Higher Secondary (12th)

2023

Khimji Ramdas Higher Secondary School – Mandvi , Katch

- Percentage: 71.84%

Secondary (10th)

2021

R.K. High School – Mandvi , Katch

- Percentage: 80.16%

CERTIFICATIONS & ACHIEVEMENTS

- AI Agent Making Competition 2026 – AzzipTech (*March 2026*)
- Foundation Course on Green Skills & Artificial Intelligence – Edunet Foundation | AICTE | Shell Skills4Future (*February 2025*)
- TechNova Hackathon 2025 Participant – Google Student Ambassador & GMIU Coding Club (*November 2025*)
- TechManjari 2026 Participant – Gyanmanjari Innovative University (*January 2026*)
- InnoApp Event Participant – Gyanmanjari Startup & Entrepreneurship Cell (*August 2025*)
- Pahel 1.0 Technical Event Participant – Gyanmanjari Innovative University (*September 2025*)
- Workshop on Node.js – Gyanmanjari Innovative University (*January 2025*)
- Code2Impact Event Participant – Gyanmanjari Innovative University (*July 2025*)

Certificates Portfolio: [Google Drive Link](#)

ADDITIONAL INFORMATION

- Languages Known: English, Hindi, Gujarati
- Strong understanding of Full-Stack Web Development and AI-based applications
- Familiar with Git, GitHub, REST APIs, JWT Authentication, and Database Management
- Passionate about AI, Web Development, and Modern Technologies
- Comfortable working in team environments and collaborative projects
- Available for internships and entry-level developer roles
